**Re: Manufacturing Solutions, LLC**

To Whom It May Concern:

Ty Haines of Manufacturing Services, LLC, was instrumental in helping Ferralloy, Inc., achieve ISO 2008:9001 certification in record time. He worked with members of our quality team and helped create effective work instructions and procedures, at the same time kept the program on schedule. Ty Haines actually told us how to save money throughout the process by encouraging us to do what we could on our own and using him only when needed. With Ty's assistance we went from having no quality program in place, to becoming fully ISO certified in just six months!

With regards to our experience with Ty Haines and Manufacturer Solutions, LLC, we are happy to recommend his professional consulting and training services to anyone who may be interested.

Sincerely,

*George M. Donnelly*
